About

Advocate for clean, user-centered design with a passion for creating intuitive, engaging front end experiences.

My skill set is a mix of design thinking, acute attention to detail, front-end fluency, digital design prowess, and creativity. I thrive working in cross-functional teams, and have excellent communication skills.

Tools

UX/UI	Sketch	Agile
HTML5	InVision	GIT
CSS	JavaScript	NPM
SASS/scss	jQuery	Node
Flexbox	Ember	API
SVG	Angular	AJAX

Skills

Usability inspection / Nielsen's heuristics • Wireframes • User flows • Mockups • Prototyping • Atomic design • Mobile-first, responsive design • Cross-browser support
